

# Mitigating Wild Boar Conflict Around the World: The Potential for Using Fertility Control

**BOTSTIBER INSTITUTE**  
FOR WILDLIFE FERTILITY CONTROL

Welcome to  
The Botstiber Institute  
for Wildlife  
Fertility Control  
Webinar Series  
“Mitigating Wild Boar  
Conflict Around  
the World:  
The Potential for Using  
Fertility Control.”

*This event would not  
have been possible  
without support from*

## AGENDA

*-- This program is subject to changes and updates. --  
All Times are Eastern Daylight Time (EDT).*

### WEEK 2: THURSDAY, JUNE 17, 2021

#### SESSION 3: MODELLING AND POPULATION SURVEYING 11AM - 12PM (EDT)

- 11:05 - 11:15am **Kim Pepin**, Research Biologist, USDA-APHIS-NWRC, USA
- 11:15 - 11:25am **"Too many wild boar? Modelling fertility control and culling to Reduce wild boar numbers in isolated populations"**  
**Simon Croft**, Animal and Plant Health Agency (APHA), UK
- 11:25 - 11:35am **"Low effectivity of wild boar hunting. Case studies from Germany"**  
**Ulf Hohmann**, Research group - Wildlife Ecology, Research Institute for Forest Ecology and Forestry, Germany
- 11:35am - 12:00pm **Question and answer period**

#### SESSION 4: TOOLS AND IMPLEMENTATION 12 - 1PM (EDT)

- 12:05 - 12:15pm **Kurt VerCauteren**, Research Wildlife Biologist, USDA-APHIS-NWRC, USA
- 12:15 - 12:25pm **"Wild pig management and research in north-eastern Australia"**  
**Matt Gentle**, Research Scientist, Department of Agriculture & Fisheries, Queensland Government, Australia
- 12:25 - 12:35pm **"Measure the abundance of non-individually identifiable wild boar: a critical analysis of the most promising methods"**  
**Barbara Franzetti**, Institute for Environmental Protection and Research (ISPRA), Italy
- 12:35 - 12:45pm **"The BOS: Boar-Operated-System"**  
**Julia Coats**, National Wildlife Management Centre, Animal and Plant Health Agency, UK
- 12:45 - 1:00pm **Question and answer period**
